

Kiss those baggage fees goodbye...
Less than 4.4 lbs. (2kg)

The Zuma makes traveling easy with its lightweight, roll-up design so you can skip the airport "check-in" and stow your BC in a carry-on. This ultra-light, weight-integrated, back inflation BC has everything you need for your next adventure.

This ground-breaking design includes a quick-drying air cell, a revolutionary new Tank Load Distribution support system that eliminates the excess bulk of a backpack, and state-of-the-art SureLock™ II weight integration system.
